## European car market. Registrations in February 2019

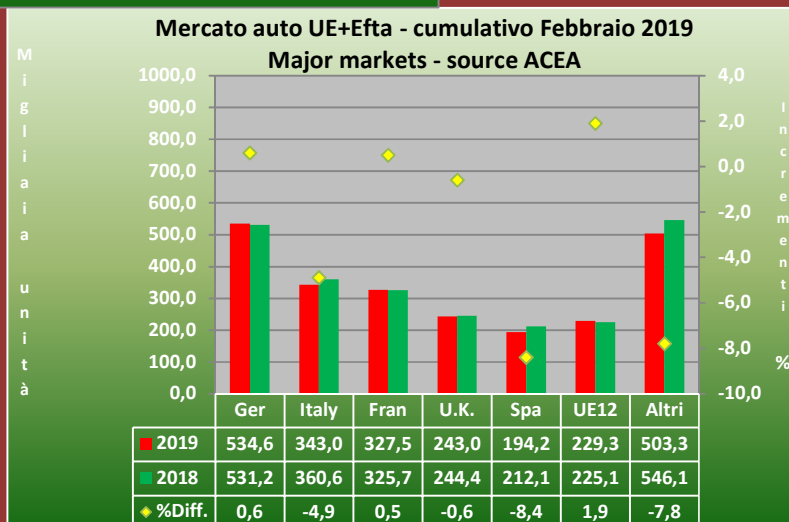

It continues also in the first two months of the current year, and for the sixth consecutive month, the drop in European demand for cars: -2.9% in the period.

In the cumulative of the year the registrations decreased to 2.374963 units. Among the major markets the largest losses occurred in Spain (-8.4%), in Italy (-4.9%), in the Efta area (-1.9%) and in Great Britain (-0.6%). Sales results improved in the EU12, on the other hand, risen by

1.9%, in Germany (+ 0.6%) and in France (+ 0.5%).

Despite the drop in registrations, Italy gained second place in the ranking among the major markets, ahead of France and Great Britain.
