

## US market for heavy trucks (Class 8) - Sales in August 2018

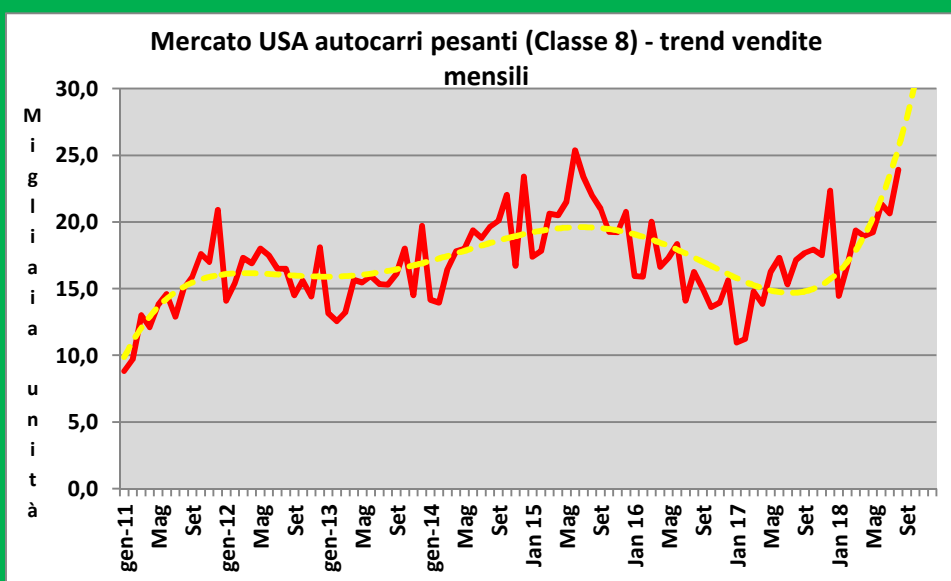

Turin, September 17, 2018

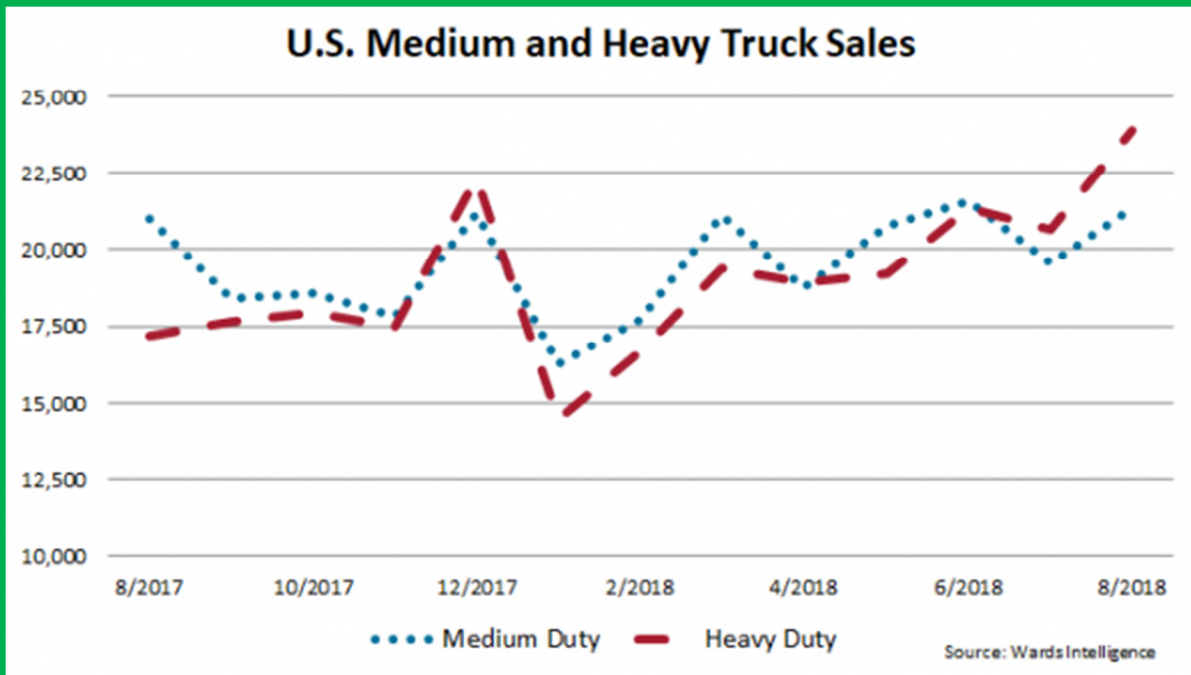

New great leap forward in August of heavy trucks sales (class 8), up 15.8% compared to July.

According to preliminary data from Ward's Automotive, with around 24,000 units sales of Class 8 vehicles increased by 15.8% in August compared to July, but rose 39.3% compared to August last year. In the first 8 months cumulated sales were close to 154,600 units, 32.3% more than the same period last year.

Orders continue to show a progressive increase over the previous year, and with a volume of over 53,100 units (+ 0.9% on July and + 150% over last year), they mark the highest value ever. The total of industrial vehicles sold in August, between middle class and heavy, amounted to 45,283 units, 18.6% more than last year's August, when 38,176 units were sold.
